

Meryem ACHEMLAL

Front-End Developer - Reactjs

Backed by 6 years of experience in front-end development and web integration, with a strong focus on React over the past year, I am actively looking for my next challenge as a React Front-End Developer.

Work experience

FrontEnd Developer Since Jun. 2022

SMILE, Asnières-sur-Seine, France

Key Projects

IGN

React Front-End Developer

Tech Stack: React, TypeScript, Zustand, Figma, npm, React-dsfr (French Government Design System)

- **Context:** Designed and implemented a report management system to centralize and standardize modification workflows (sketches, themes, descriptions, and documents).
- **Role-Based Access Control (RBAC):** Built conditional UI rendering to strictly segregate administrative rights and features from standard user permissions.

SUEZ

React Front-End Developer — MonServiceDechets Project

Tech Stack: React.js, TypeScript, GraphQL, Strapi, Apollo Studio, HTML, CSS (Sass), Git, npm

- **Context:** Contributed to *MonServiceDechets*, a web application guiding citizens in daily waste management, promoting waste sorting, and providing personalized information.
- **Full-Spectrum Front-End Development:** Worked on both Front-Office and Back-Office interfaces.
- **Requirements & Design:** Analyzed functional requirements and translated them into detailed technical specs.
- **UI Integration & Development:** Built responsive user interfaces integrated from design wireframes/mockups.
- **Quality & Testing:** Wrote unit tests and technical documentation, ensuring full compliance with client specifications.

Loisirs

- Video games
- Mangas/Anime
- Sport
- Cinema
